INDEX OF AUTHORS

Volume 36

January 1966 • June 1966

Journal of the National Cancer Institute
and
National Cancer Institute Monographs

Page numbers in italics indicate senior authorship

Achong, B. G., *877*
Adamson, Richard H., 323
Alexander, Jo Ann, 709
Alexander, P., 29
Allison, A. C., *859*, *869*
Altaner, Cestmir, 389
Ambrus, C. M., 171
Anderson, Douglas R., *139*, *161*
Anderson, H. Clarke, *89*
Andresen, William F., *953*, 1075
Arnoult, Jacqueline, *1089*
Atkin, N. B., *539*
Auersperg, Nelly, 523

Back, N., *171*
Baker, Marion C., 539
Balner, H., *513*
Bardin, C. Wayne, *259*
Barile, Michael F., *155*, 161
Barker, Jane, 1
Baylis, Paula, 45, 277
Beaty, L. E., *375*
Bjaring, B., 947
Blair, Phyllis B., *423*
Bodey, Gerald P., 155
Borsos, Tibor, 529, 559
Botkin, Constance C., 323
Branshaw, R. H., 171
Briggs, Russell C., 965
Bruce, W. R., 21
Burmester, B. R., 585
Burrell, R. J. W., *201*

Carbone, Paul P., 567
Carney, Paula G., 1003
Clifton, Kelly H., *965*
Colten, Harvey R., 559
Connelly, Roger R., *277*
Conner, Gabel H., *383*
Cooper, M. D., 585
Cooper, R. A., 657
Correa, Pelayo, *717*
Crisler, Crile, *529*
Crispens, Charles G., Jr., *81*
Crittenden, Lyman B., *299*
Crittenden, Margaret, 383
Cutler, Sidney J., 277

Dawe, Clyde J., 1121
Dawson, Peter J., 71
Deichman, Galina I., *647*
Deitrich, Sarah, 1
Den Beste, Harlan E., *1075*
DeOme, K. B., 809
Dersjant, H., 513
Deschner, Eleanor E., *849*

XUM

INDEX OF SUBJECTS

Volume 36

January 1966 • June 1966

Journal of the National Cancer Institute

and

National Cancer Institute Monographs

Adenomatosis, pulmonary, in captive wild mammals and birds from Philadelphia Zoo, 117
Age, influence of, on induction of hepatomas and other tumors, with urethan in infant mice, 1111
Alkylating agents:
  alkylating chemicals, bioassay of, by lung-tumor response in mice, 915
  effect of tryptophan mustard on amino acid incorporation into proteins in tumor-bearing rats, 63
Ameloblastoma, induction of, in transplanted tooth buds of mice infected with polyoma virus, 1121
Amethopterin, modification of Leukemia L1210 growth kinetics with, in mice, 15, 909
Amino acids, effects of tryptophan mustard on incorporation of, into proteins in tumor-bearing rats, 63
Announcements:
  Gordon Research Conference, 1212
  Manuscripts Approved for JNCI, 169, 353, 566, 817, 985, 1211
  National Cancer Institute Monograph 19, 169
  National Cancer Institute Monograph 20, 353
Anoxia, methodology and effect of, on radiosensitivity of solid carcinomas *in vivo*, 965
Antibody(ies):
  effect of noncarcinogenic and carcinogenic hydrocarbons on cells forming, in mice, 1189
  Forssman antigen content of guinea pig hepatomas, 529
Antigen(s) *see also* Antibody; Immunity studies
  Forssman, content of, in guinea pig hepatomas, 529
  H-2,
    characterization of, of L-M mouse cells grown in culture, 1151
    residual, in mouse lymphoma sublines, 947
  intraspecies differences in, on surface of living human cells, 355
  iso- ———, variant, in heterozygous mouse tumors, 233
  of mouse mammary tumor virus, 423
Antigen(s)—Continued
  transplantation, loss of, in primary simian virus 40-induced tumors and their metastases, 647
  variation of characteristics of, between different mouse lymphomas induced by Moloney virus, 607
Antitumor agents *see* Amethopterin; Cyclophosphamide; Radioactive materials; Vinblastine
Ascites tumor, mechanism of rejection of Sarcoma I in C57BL/Ks mouse, 975
Autoradiography:
  of chronology and pattern of replication of human chromosomes of cells from cancer effusions, 1057
  of late-replicating chromosomal segments in aneuploid Chinese hamster cell lines, 215
  of pattern of H^3-thymidine uptake in life cycle of individual cell of HeLa strain *in vitro*, 623
  of H^3-thymidine incorporation into human rectal epithelial cells of polyps and adjacent mucosa *in vitro*, 849
Avian tumor viruses *see* Virus

Bioassay:
  of 29 alkylating chemicals by the pulmonary-tumor response in mice, 915
  use of likelihood principle in, 937
Blood:
  erythrocytes of mice, activity of mammary tumor agent in, 809
  mouse strain specificity of mammary tumor agent in, 803
  propylthiouracil and transfusion modifications of effects of Rauscher virus in BALB/c mice, 1003
Bone, sarcomas of, in dogs, estimation of relative risk as a function of body size, 1137
Books received, 565
Breast *see* Mammary
Burkitt's tumor, fine structure of, 877

XUM

Bursa of Fabricius, relationships among visceral lymphomatosis, bursa-dependent lymphoid tissue of chicken, and, 585

Cancer *see also* Names and types of tumors; National Cancer Institute Monograph No. 19; Tumors
clinical staging in,
of breast, 53
of larynx, 45
trends in mortality from, with special reference to gastric cancer in Iceland, 899
Carcinogenesis *see also* Names and types of tumors; Tumors
chemical carcinogens,
bioassay of alkylating chemicals in mice, 915
diethylnitrosamine, Forssman antigen content of guinea pig hepatomas induced by, 529
N-2-fluorenylacetamide and *N,N'*-2,7-fluorenylenebisacetamide, lack of carcinogenic activity and metabolic fate of, in monkeys, 305
N-2-fluorenyldiacetamide, importance of thyroid hormone and testosterone in induction of carcinoma and cirrhosis of liver in female Wistar rats ingesting, 775
hydrocarbons, effect of, on antibody-forming cells in mice, 1189
3-methylcholanthrene,
and 7,12-dimethylbenz[*a*]anthracene in rats, 483
hyperplastic lesions of mouse mammary glands after treatment with, 289
inhibition of growth of mouse sarcomas induced by, by sensitized isologous lymphoid cells, 825
neonatal thymectomy and tumor induction with, in mice, 513
N-nitrosodiethylamine, hepatic cell carcinomas in monkeys, induced by, 323
urethan, influence of age on induction of hepatomas and other tumors with, in infant mice, 1111
use of likelihood principle in determining activity, 937
in vitro studies on, in C3H mice, 953
Carcinogens *see* Diethylnitrosamine; 7,12-Dimethylbenz[*a*]-anthracene; *N*-2-Flourenylacetamide; *N*-2-Flourenyldiacetamide; *N,N'*-2,7-Flourenylenebisacetamide; Hydrocarbons; 3-Methylcholanthrene; *N*-Nitrosodiethylamine; Urethan
Carcinomas:
human tissue culture line H.Ep. #2, heterologous transplantation, chromosome analyses, and DNA measurements of, 673
measurement *in vivo* of radiosensitivity of solid, of mice, 965
Cell(s):
autoradiographic studies on, from human cancer effusions, chronology and pattern of chromosome replication of, 1057
HeLa, study of DNA synthesis by individual cell *in vitro*, 623
HEp-2, adaptation, growth, and chromosome analyses of, in chemically defined medium, 1075
of human osteogenic sarcoma, electrophoretic mobility and oxygen utilization of, 837
Cell(s)—Continued
L-M, of mouse, characterization of H-2 antigens ,of grown in culture, 1151
Chicken tumors *see* Fowl tumors
Chimeras *see* X-ray radiation
Chromosome(s) *see also* Genes; Genetics; National Cancer Institute Monograph No. 18
abnormalities as primary events in human malignant disease, with evidence from marker chromosomes, 539
adaptation, growth, and analysis of, of HEp-2 cells in chemically defined medium, 1075
analyses of, of human carcinoma tissue culture line, H.Ep. #2, 673
human, chronology and pattern of replication of, of cells from cancer effusions studied by autoradiography, 1057
late-replicating segments of, in aneuploid Chinese hamster cell lines as determined by autoradiography, 215
Philadelphia, in chronic myelogenous leukemia of humans, 567
suspension cell culture and *in vivo* and *in vitro* constitution of, of mouse Leukemia L1210, 405
Cinematography:
micro-, of pattern of H^3-thymidine uptake in life cycle of individual cell of HeLa strain *in vitro*, 623
time-lapse, observations with, of morphologic properties and longevity of nonviral intranuclear inclusions in human oral tumor *in vitro*, 747
Cyclophosphamide:
therapy in mouse Leukemia L1210 with,
combined with hyperbaric oxygen and X radiation, 37
effect of, on growth kinetics, 909

Deoxyribonucleic acid:
measurements of, in human carcinoma tissue culture line H.Ep.#2, 673
synthesis of, during life cycle of individual cell of HeLa strain, 623
Diethylnitrosamine, Forssman antigen content of guinea pig hepatomas induced by, 529
Diethylstilbestrol, in carcinogenesis of mammary tumors of F_1 hybrids of strain C3H/J and RIII/An mice, 1167
7,12-Dimethylbenz[*a*]anthracene, carcinogenicity of, after gastric instillation to rats, 483

Electron microscopy:
of blood plasma, cerebrospinal fluid, and megakaryocytes from bone marrow in a search for virus particles in human leukemia, 1089
fine structure of Burkitt's tumor, 877
of induced secretion in organ cultures of mammary tissue of C3H/Crgl mouse, 657
of *Mycoplasma* in artificial medium and in tissue culture, 139
of plant neoplasia induced by wound tumor virus, 97
ultrastructure of *Mycoplasma orale* isolated from patients with leukemia, 161
Electrophoresis, electrophoretic mobility of cells and oxygen utilization, 837

End results, in lung cancer, comparison of male and female rates, 277
Enzymes *see also* Names of
fibrinolytic, uptake of, and fibrinogen by neoplastic tissue, 171
Epidemiology *see also* National Cancer Institute Monograph No. 19
bovine leukemia, 383
esophageal cancer in Bantu of the Transkei associated with mineral deficiency in garden plants, 201
morbidity and mortality from cancer in Cali, Colombia, 717
trends in mortality from cancer, with special reference to gastric cancer in Iceland, 899
Esophagus, cancer of, in Bantu of the Transkei associated with mineral deficiency in garden plants, 201
Estrogens *see also* Diethylstilbestrol; Hormones
effects of, on mammary tissue of agent-free and agent-bearing male mice, 181

Fibrinogen, uptake of, and fibrinolytic enzymes by neoplastic tissue, 171
N-2-Fluorenylacetamide, lack of carcinogenic activity and metabolic fate of, in monkeys, 305
N-2-Fluorenyldiacetamide, importance of thyroid hormone and testosterone in induction of carcinoma and cirrhosis of liver in female Wistar rats ingesting, 775
N,N'-2,7-Fluorenylenebisacetamide, lack of carcinogenic activity and metabolic fate of, in monkeys, 305
Fowl tumors, Sarcoma B77, induction of rat tumor RBI with, 389

Gastric cancer, trends in mortality from, in Iceland, 899
Gene(s) *see also* National Cancer Institute Monograph No. 18
fused (a mutant), relation of, to ovarian tumors in *Drosophila melanogaster*, 445
Genetics *see also* Chromosomes; National Cancer Institute Monograph No. 18
H-2 antigens in variant sublines of mouse lymphoma, 947
influence of Rs locus on susceptibility to avian tumor viruses, 299
variant isoantigens in heterozygous mouse tumors, 233
Glands *see* Names of
Grafts *see* Transplantation
Growth:
characteristics of, and virology of regressing Rous sarcomas in chickens, 189
kinetics of mouse Leukemia L1210,
effect of amethopterin and cyclophosphamide on, 909
modification of, with amethopterin, 15

Haptoglobin, possible etiological significance of type of, associated with human leukemia, 631

Hepatoma(s) *see also* Liver tumors
influence of,
age on induction with urethan of, and other tumors in infant mice, 1111
partial hepatectomy of rats on C^{14}-formate incorporation by, 709
Heredity *see* Genetics
Hormones *see also* Diethylstilbestrol; Estrogens; Testosterone; Thyroid
thyroid hormone and testosterone, importance of, in induction of carcinoma and cirrhosis of liver in female Wistar rats ingesting *N*-2-fluorenyldiacetamide, 775
Hydrocarbons, noncarcinogenic and carcinogenic, effect of, on antibody-forming cells in mice, 1189
Hypophysis, isografts of, effect of, on mammary glands of mice, 259

Immunity studies:
antitumor, in Shope papilloma-carcinoma complex of rabbits, response to reinfection with viral nucleic acid, 1161
against autologous tumor transplant in rats, 29
effect of added thymus tissue from susceptible mouse strain upon response of two resistant strains, 599
effect of noncarcinogenic and carcinogenic hydrocarbons on antibody-forming cells in mice, 1189
growth inhibition of 3-methylcholanthrene-induced mouse sarcomas by sensitive isologous lymphoid cells, 825
immune cytolysis measurement by electrolytic conductance, 559
immune responses to Shope fibroma virus in adult and newborn rabbits, 869
immunosuppressants, effects of, on Shope rabbit fibroma, 859
lymphocyte transfer test in cancer patients, 819
mechanism of rejection of Sarcoma I ascites tumor in C57BL/Ks mouse, 975
papovavirus SV40 transplantation immunity conferred by adenovirus-SV40 hybrid, 703
Implantation *see* Transplantation
Inheritance *see* Genetics
Instrumentation, immune cytolysis measurement by electrolytic conductance, 559
Irradiation *see* Radiation; X-ray

Lactate dehydrogenase:
agent in thymectomized mice, 81
-elevating virus, quantitative study of, in mouse embryo cultures, 89
Larynx, cancer of, clinical staging in, 45
Leukemia:
bovine, epidemiology of, 383
human,
chronic myelogenous, Philadelphia chromosome in, 567
Mycoplasma orale,
isolation of, from leukemic bone marrow and blood by direct culture, 155
ultrastructure of, isolated from patients with, 161

XUM

Leukemia—Continued
human—Continued
possible etiologic significance of, associated with serum haptoglobin type, 631
search for virus particles in, by electron microscopic studies of blood plasma, cerebrospinal fluid, and megakaryocytes from bone marrow, 1089
murine,
B/T-L effect of added thymus tissue from mouse strain susceptible to viral leukemogenesis on response of resistant strains, 599
Friend, virus-free tumor induced by, 71
L1210,
combination of hyperbaric oxygen, whole-body X irradiation, and cyclophosphamide as therapy for, 37
growth kinetics following antimetabolite and alkylating agent therapy, 909
modification of growth kinetics of, with amethopterin, 15
suspension cell culture and *in vivo* and *in vitro* chromosome constitution of, 405
Rauscher,
development of thymic neoplasms in rats inoculated with, 1027
effects of ribonuclease and deoxyribonuclease on, 465
morphology of BALB/c mice inoculated with, 987
propylthiouracil and transfusion modifications of effects of, in BALB/c mice, 1003
Liver:
cirrhosis and carcinoma of, importance of thyroid hormone and testosterone in induction of, in female Wistar rats ingesting *N*-2-fluorenyldiacetamide, 775
effect of partial hepatectomy of rats on formate-C^{14} incorporation in hepatoma, 709
Liver tumor(s) *see also* Hepatomas
Forssman antigen content of guinea pig hepatomas, 529
hepatic cell carcinomas in monkeys induced by *N*-nitrosodiethylamine, 323
Lung cancer, survival rates in male and female patients with, 277
Lung tumor(s):
in captive wild mammals and birds from the Philadelphia Zoo, 117
identification of metastases of, 641
induced in mice, use in bioassay of carcinogens, 915
use of likelihood principle in determining carcinogenic activity, 937
Lymphocytes, transfer of, test in cancer patients, 819
Lymphoid tissue, bursa-dependent, relationships among visceral lymphomatosis, bursa of Fabricius, and, of chicken, 585
Lymphoid tumors, lymphosarcoma, Murphy-Sturm, uptake of fibrinogen and fibrinolytic enzymes by, in rats, 171
Lymphoma(s):
fine structure of Burkitt's tumor, 877
murine,
antigenic variation among, induced by Moloney virus, 607
H-2 antigens in variant sublines of, 947
sensitivity of lymphoma colony-forming cells to vinblastine, 21
Lymphosarcoma *see* Lymphoid tumors

Malignancy, human, chromosome abnormalities as primary events in, with evidence from marker chromosomes, 539
Mammary gland(s) *see also* Mammary tumors
development of, in mice,
effect of estrogen on, in F_1 hybrids of strains C3H/J and RIII/An mice, 1167
after hypophysial isografts, 259
effects of estrogens on, of agent-free and agent-bearing male mice, 181
hyperplastic lesions of, in mice treated with 3-methylcholanthrene, 289
susceptibility of, of resistant mouse strains to mammary tumor agent, 783
tissue of, electron microscopy of induced secretion in organ cultures of, of C3H/Crgl mouse, 657
Mammary tumor(s):
clinical staging in, 53
immunology of virus of, of mice, 423
incidence of,
in F_1 hybrids of strains C3H/J and RIII/An mice, 1167
genetic influence on etiology and morphology of, in mice, 249
role of milk agent in disappearance of, in C3H/StWi mice, 685
thromboplastin content of, in mice, 1049
Mammary tumor agent:
activity in red blood cells of mice, 809
genetic studies of, in mice, 249
immunology of, in mice, 423
mouse strain specificity in blood, 803
role of, in disappearance of tumors in C3H/StWi mice, 685
susceptibility of resistant strains of mice to, 783
Metastases, identification of pulmonary, 641
3-Methylcholanthrene:
carcinogenicity of, after gastric instillation to rats, 483
hyperplastic lesions of mouse mammary glands after treatment with, 289
inhibition of growth of mouse sarcomas induced by, by sensitized isologous lymphoid cells, 825
neonatal thymectomy and tumor induction with, in mice, 513
Milk, agent, role of, in disappearance of mammary cancer in C3H/StWi mice, 685
Mortality *see* Statistics

Mycoplasma:
electron microscopy of, in artificial medium and in tissue culture, 139
orale,
isolation of, from leukemic bone marrow and blood by direct culture, 155
ultrastructure of, isolated from patients with leukemia, 161

National Cancer Institute Monographs 18, 19, and 20 *see* pages 1209, 1210
N-Nitrosodiethylamine, hepatic cell carcinomas in monkeys induced by, 323
Nuclear inclusions, morphologic properties and longevity of nonviral, in human oral tumor, 747
Nucleic acid(s) *see also* Deoxyribonucleic acid; Ribonucleic acid
synthesis of, in hepatoma, stimulation of, by partial hepatectomy in rats, 709
Nutrition, esophageal cancer in Bantu of the Transkei associated with mineral deficiency in garden plants, 201

Organ culture(s):
electron microscopy of induced secretion in, of mammary tissue of C3H/Crgl mouse, 657
H^3-thymidine incorporation into human rectal epithelial cells of polyps and adjacent mucosa in, 849
Organs *see* Names of
Ovarian tumors, in *Drosophila melanogaster*, 445
Oxygen:
hyperbaric, therapy in mouse Leukemia L1210 with, combined with X radiation and cyclophosphamide, 37
utilization, effect of, on cell electrophoretic mobility, 837

Papovavirus SV40 *see* Virus—simian vacuolating (SV40)
Phase microscopy, observations with, of morphologic properties and longevity of nonviral intranuclear inclusions in human oral tumor *in vitro*, 747
Plant tumors, electron microscope study of, induced by wound tumor virus, 97
Plasma *see* Blood
Pleuropneumonia-like organisms *see Mycoplasma*
Polyoma virus *see* Virus
Polyps, rectal, H^3-thymidine incorporation into human epithelial cells of, and adjacent mucosa, 849
Proteins, nuclear, inhibition of incorporation of radioactive amino acids into, by tryptophan mustard in tumor-bearing rats, 63
Pulmonary *see* Lung

Radiation *see also* X-ray
gamma, radiosensitivity of solid carcinomas *in vivo*, methods and effect of anoxia on, 965
Radioactive materials:
amino acids, inhibition of incorporation of, into nuclear proteins by tryptophan mustard in tumor-bearing rats, 63
H^3-thymidine,
incorporation of, into human rectal epithelial cells of polyps and adjacent mucosa *in vitro*, 849
uptake of, by individual cell of HeLa strain, 623
Radiotherapy *see* Therapy
Ribonucleic acid, in Rauscher murine leukemia virus, 465
Rous sarcoma *see* Virus

Sarcoma(s):
bone, in dogs, estimation of relative risk as a function of body size, 1137
chicken, B77, pathogenicity of, for rats and RBI rat tumors, pathogenicity of, for chickens, 389
inhibition of growth of, induced by 3-methylcholanthrene, by immune lymphoid cells in mice, 825
Sex, difference in survival rates for lung cancer, 277
Shope fibroma *see* Virus
Shope papilloma *see* Virus
Simian vacuolating (SV40) *see* Virus
Staging, clinical:
in cancer of breast, comparison of International and American systems for, 53
in cancer of larynx, with the use of American Joint Committee's method of classification, 45
Statistics, cancer:
lung cancer survival rates in male and female patients, 277
morbidity and mortality from cancer in Cali, Colombia, 717
Stomach *see* Gastric cancer

Technique(s):
biochemical,
comparison of different, for purification of Shope papilloma virus, 375
immune cytolysis measurement by electrolytic conductance, 559
Testosterone, importance of thyroid hormone and, in induction of carcinoma and cirrhosis of liver in female Wistar rats ingesting *N*-2-fluorenyldiacetamide, 775
Therapy *see also* Antitumor agents
in mouse Leukemia L1210,
with combination of hyperbaric oxygen, whole-body X irradiation, and cyclophosphamide, 37
with cyclophosphamide and amethopterin, effect of, on growth kinetics, 909
Thromboplastin, content of, in C3H/St/Ha mammary tumor, 1049
Thymidine:
tritiated,
incorporation of, into human rectal epithelial cells of polyps and adjacent mucosa *in vitro*, 849
uptake of, by individual cell of HeLa strain, 623

XUM

Thymus:
development of neoplasms of, in rats inoculated with Rauscher murine leukemia virus, 1027
effect of added tissue of, from mouse strain susceptible to viral leukemogenesis on response of resistant strains, 599
effect of thymectomy on mice infected with lactate dehydrogenase agent, 81
growth of human carcinoma graft in thymectomized mice, 523
tumor induction with 3-methylcholanthrene in thymectomized mice, 513
Thyroid gland, spontaneous tumors of, in mice, 1
Tissue culture:
adaptation, growth, and chromosomal analysis of HEp-2 cells in chemically defined medium, 1075
carcinogenesis in, transformation in kidney cultures of C3H mice, 953
characterization of H-2 antigens of L-M mouse cells grown in, 1151
electron microscopic studies of *Mycoplasma* in artificial medium and in, 139
epithelioid variant of BHK21 hamster fibroblast line and its transformation in, by polyoma virus, 503
human oral tumor in, morphologic properties and longevity of nonviral intranuclear inclusions of, 747
intraspecies differences in antigens on the surface of living human cells, 355
late-replicating chromosomal segments in aneuploid Chinese hamster cell lines as determined by autoradiography, 215
spontaneous, malignant transformation of hamster embryo cells in, 477
virus-free Friend virus-induced tumor in, 71
Tracer studies:
H^3-thymidine,
incorporation of, into human rectal epithelial cells of polyps and adjacent mucosa *in vitro*, 849
uptake of, by individual cell of HeLa strain, 623
L-tryptophan-C^{14} and L-arginine-U-C^{14}, incorporation of, after tryptophan mustard administration in tumor-bearing rats, 63
Transformation:
of hamster fibroblasts by polyoma virus, 503
neoplastic, in cells explanted from kidneys of C3H mice, 953
spontaneous malignant, of hamster embryo cells *in vitro*, 477
Transplantation:
growth of human carcinoma graft in thymectomized mice, 523
heterologous, of human carcinoma tissue culture line, H.Ep.#2, 673
immunity to,
tumor autograft in rats, 29
papovavirus SV40 tumor conferred by adenovirus-SV40 hybrid, 703
Transplantation—Continued
isografts of hypophysis, mammary gland development after, in intact mice of high and low mammary cancer strains, 259
lymphocyte transfer test in cancer patients, 819
measurement of radiosensitivity of solid carcinomas *in vivo*, 965
mechanism of rejection of Sarcoma I ascites tumor in C57BL/Ks mouse, 975
mortality of mouse radiation chimeras after inoculation of various numbers of bone marrow and lymph node cells, 431
sensitivity of hematopoietic and transplanted lymphoma colony-forming cells of mice to vinblastine, 21
tumor induction in transplanted tooth buds of mice infected with polyoma virus, 1121
Tumor(s) *see also* Names and types of
effect of neonatal thymectomy in induction of, with 3-methylcholanthrene in mice, 513
growth of human carcinoma graft in thymectomized mice, 523
heterozygous, variant isoantigens in, of mice, 233
immunity to,
autologous transplant of, in rats, 29
papovavirus SV40 transplantation conferred by adenovirus-SV40 hybrid, 703
Shope papilloma-carcinoma complex in rabbits, 1161
influence of Rs locus on susceptibility to avian tumor viruses, 299
intraspecies differences in antigens on the surface of living human cells, 355
spontaneous, of thyroid gland in mice, 1
thromboplastin content of, of mammary gland of mouse, 1049

Urethan, influence of age on induction of hepatomas and and other tumors with, in infant mice, 1111

Vinblastine, sensitivity of hematopoietic and lymphoma cells of mice to, 21
Virus *see also* Mammary tumor agent; National Cancer Institute Monograph No. 20
avian tumor, influence of Rs locus on susceptibility to, 299
chicken Sarcoma B77, pathogenicity of, for rats, 389
lactate dehydrogenase,
agent in thymectomized mice, 81
-elevating, quantitative study of, in mouse embryo cultures, 89
murine leukemia,
B/T-L, effect of added thymus tissue from mouse strain susceptible to viral leukemogenesis on response of resistant strain, 599
Friend, virus-free tumor induced by, *in vitro* and *in vivo* characteristics of, 71
Moloney, antigenic variation among murine lymphomas induced by, 607

XUM

Virus—Continued
murine leukemia—Continued
Rauscher,
development of thymic neoplasms in rats inoculated with, 1027
effects of ribonuclease and deoxyribonuclease on, 465
morphology of BALB/c mice inoculated with, 987
propylthiouracil and transfusion modifications of effects of, in BALB/c mice, 1003
polyoma,
epithelioid variant of BHK21 hamster fibroblast line transformed by, 503
tumor induction in transplanted tooth buds of mice infected with, 1121
Rous sarcoma, growth characteristics and virology of regressing sarcomas in chickens, 189
search for particles in, in human leukemia by electron microscopic studies of blood plasma, cerebrospinal fluid, and megakaryocytes from bone marrow, 1089
Shope fibroma,
effects of immunosuppressants on, in rabbits, 859
immune responses to, in adult and newborn rabbits, 869
Shope papilloma,
antitumor immunity to Shope papilloma-carcinoma complex of rabbits, response to reinfection with viral nucleic acid, 1161
Virus—Continued
Shope papilloma—Continued
comparison of purification methods of, 375
simian vacuolating (SV40),
loss of transplantation antigen in primary tumors induced by, and their metastases, 647
SV40 tumor immunity conferred by adenovirus-SV40 hybrid, 703
visceral lymphomatosis, relationships among bursa of Fabricius, bursa-dependent lymphoid tissue of chicken, and, 585
wound tumor, electron microscope study of plant neoplasia induced by, 97
Visceral lymphomatosis *see* Virus

Wound tumor *see* Virus

X-ray radiation:
mortality of mouse radiation chimeras in relation to number of transplanted bone marrow and lymph node cells, 431
therapy in mouse Leukemia L1210 with, combined with hyperbaric oxygen and cyclophosphamide, 37

International Symposium on Genes and Chromosomes—Structure and Function (No. 18)

Chromosome behavior:
function at the supragenic level, 275
meiotic mechanics of ring chromosomes in female *Drosophila melanogaster*, 243
pairing, crossing-over, and segregation in *Drosophila melanogaster*, 215

Chromosome breakage and reunion:
chemistry of chromosome continuity, 155
modification of breakage and reunion in relation to lethal damage, 181

Chromosome metabolism:
differentiation, 309
functions in specific regions, 293
nucleolus and the synthesis of ribosomes, 325
symposium on structures and function of genes and chromosomes—a summation, 341

Chromosome structure and replication:
bacteriophage chromosome, 67
chromosome replication, 101
fine structure of,
lampbrush chromosomes, 79
meiotic chromosomes, 133

Foreword, VII

Genes—structure and function:
gene differentiation, 15
gene-protein relationships, 1
genetic aspects of colicinogeny, 53
genetic control of the *p*H 7.5 esterase in maize, 9
impaired complementation between nonallelic mutations in *Neurospora*, 33
Neurospora mutants deficient in aspartic transcarbamylase, 21

Introduction, XIII

XUM

Epidemiological Study of Cancer and Other Chronic Diseases (No. 19)

British-Norwegian migrant studies:
  background and design, 287
  conduct of field work in the United States, 301
  prevalence of cardiorespiratory symptoms among migrants and native-born in the United States, 321

Cancer registers and allied studies:
  morbidity survey and case register estimates of cancer incidence, 373
  morphology and survival rates of cervical cancer in Connecticut and Southwest England, 385

Case-control study:
  preconception, intrauterine, and postnatal irradiation as related to leukemia, 347

Foreword, VII

Prospective studies:
  Dorn study of smoking and mortality among U.S. veterans—report on eight and one-half years of observation, 1
  influence of health on smoking habits, 269
  mortality of British doctors in relation to smoking—observations on coronary thrombosis, 205
  smoking in relation to death rates of one million men and women, 127

Publications of Harold F. Dorn, IX

Uses of death certificates:
  evaluation of diagnostic information supporting medical certification of deaths from cardiovascular disease, 405
  new numerators for old denominators—multiple causes of death, 431
  significance of cause of death as recorded on death certificates in Hiroshima and Nagasaki, Japan, 445
  underlying and contributory causes of death, 421

Viruses of Laboratory Rodents (No. 20)

Commercial production of mice with a specified flora, 161
Concept of the virus-defined animal, 17
Discussions, 12, 37, 87, 141, 173
Epizootic diarrhea of infant mice and lethal intestinal virus infection of infant mice, 55
Introduction, XIII
Introduction of Sir Christopher Andrewes, XV
Latency and viral ecology, 1
Limiting the viral spectrum of the laboratory mouse, 147
Lymphocytic choriomeningitis, 77
Mouse hepatitis, reo-3, and Theiler viruses, 67
Natural history of mousepox, 105
Prevalence of viruses in mouse colonies, 25
Respiratory virus infections of mice, 93
Serological studies with an agent of epizootic diarrhea of infant mice, 63
Symposium summary, 179
Taxonomy of murine viruses, 47
Viral status of "germfree" mice, 167
Viruses of laboratory and wild rats, 117
